Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 30 January 2004.
- 2a) ☐ This action is **FINAL**. 2b) ☒ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 1-20 is/are pending in the application.

DETAILED ACTION

Claim Rejections - 35 USC § 112

Claims 1-12, 14, 15 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claims 1, 12 are incomplete, since it is unclear as to how could a free standing micro-structural member be formed when the final resist portion is still existed under the structural material layer?

In claims 1, 12 are indefinite, since it is unclear as to where the second resist layer is formed. The free standing micro-structure would not be formed if the second resist were formed on the side of the first resist layer.

In claim 2, line 2, "comprises one of a prior or at least ..." is confusing.

Clarification is requested.

In claim 4, "the ultraviolet light" lacks antecedent basis, should claim 4 depends on claim 3?

In claims 5, 6, 7, last lines, "the hard bake" lacks antecedent basis, it is unclear as to whether first or second hard bake is referred to.

In claim 8, line 1, "the first smaller volume", and line 2, "the desired final resist portion volume" lack antecedent basis.

In claim 9, "the step of removing resist" lacks antecedent basis.

In claims 14, 15, "the deep UV irradiation" and "the thermal heating period" lack antecedent basis, since claim 13 does not provide support for these limitations in the second curing process.

Allowable Subject Matter

Claims 13, 16-20 are allowed.

The following is an examiner's statement of reasons for allowance: None of the references of record teaches or suggests the claimed method for forming a free standing micro-structural member including the first and second curing processes to harden the first resist portion and form a final resist portion volume respectively for a subsequent steps of depositing the structural material layer and removing the final resist portion.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Hwang et al., Choi et al., Rangarajan et al. are cited as of interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Tuan H. Nguyen whose telephone number is 571-272-1694. The examiner can normally be reached on 9AM-5:30PM.
